KITO

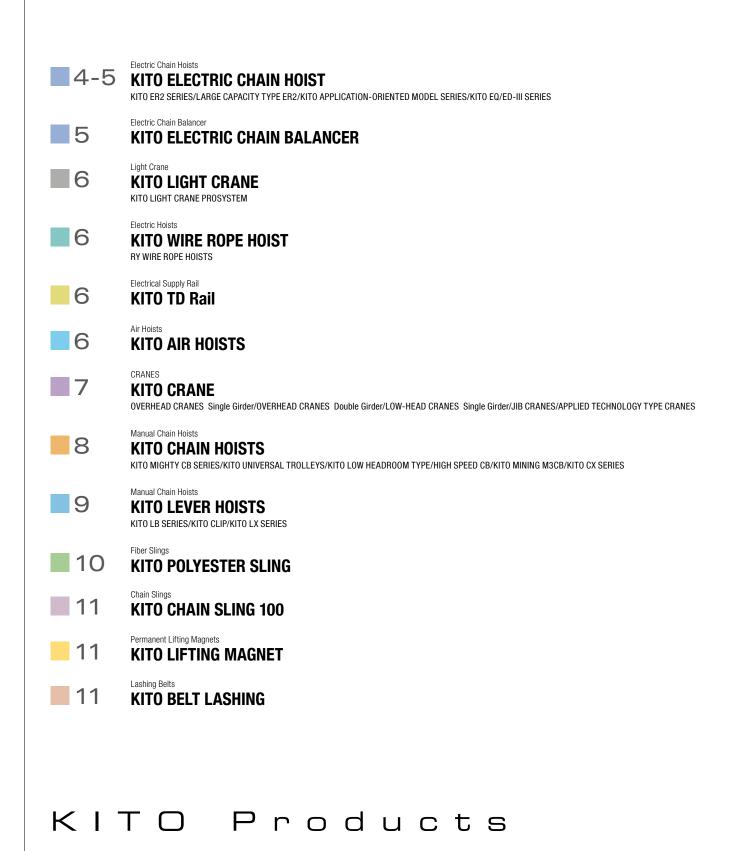

General Catalogue for KITO Products

for KITO

Outstanding product quality and a wide variety of product types. A continually-expanding huge range of hoisting systems in all industrial fields.

Products

KITO ELECTRIC CHAIN HOIST

KITO ER2 SERIES | 125kg to 20t (Three phase power supply)

Kito ER2 Series are key players in the Kito Electric Chain Hoists, featuring superior performance as a high quality, high performance crane with state-of-the-art specifications. Seeking improved ease of use and work efficiency, an inverter has been provided as standard in a dual speed hoist and trolley. The dual speed inverter delivers smoother movement than ever, reducing load swing.

ER2SG (ER2SP) CDER2 FR2M FR2 Cylinder Control Type **Dual/Single Speed Dual/Single Speed Dual/Single Speed** Motorized Trolley Type Geared/Plain Trolley Type Dual/Single Speed **Hook Suspension Type** 125kg to 5t 125kg to 5t 125kg and 250kg 125ka to 5t

LARGE CAPACITY TYPE ER2 7.5t to 20t

Large Capacity ER2 Hook Suspension Type 10t to 20t

Large Capacity ER2M Motorized Trolley Type 7.5t to 20t

Large Capacity ER2SG Geared Trolley Type 7.5t to 20t

Push button control (for ER2 and MR2) original design

The push button control is designed in an ergonomic shape that is operator friendly. Seeking ease of operation and universal design, KITO's original push button control was designed and manufactured based on trial and error repeated many times, in particular, upgrading prototypes and evaluation from an end-user point of view especially with respect to unit strength.

KITO APPLICATION-ORIENTED MODEL SERIES

Kito's Application-oriented Model Series are designed to meet various needs, load handling works as well as environmental conditions. Kito also offers various turn-key models with specifications designed to meet the user's particular applications.

KITO ELECTRIC CHAIN HOIST

KITO EQ | 125kg to 1t

KITO Electric Chain Hoist EQ maximizes the characteristics of its dual speed inverter.

And we stick with the control design. Motor-frame integration has materialized an ultimate light-weight, compact size, while maintaining high functions. Equipped with OLL the electronic overload protection device and friction clutch to ensure operational safety and environmental friendliness. Designed light-weight and compact, unique-shape push button switches are easy to grab and operate.

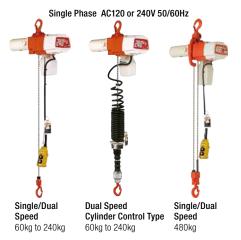

ED-III SERIES 60kg to 480kg (Single phase power supply)

This series is small in size but high in output.

Pendant control and Cylinder control types are available to meet user's applications which can be run on a home-use power supply (for Single phase).

Mini Trolley

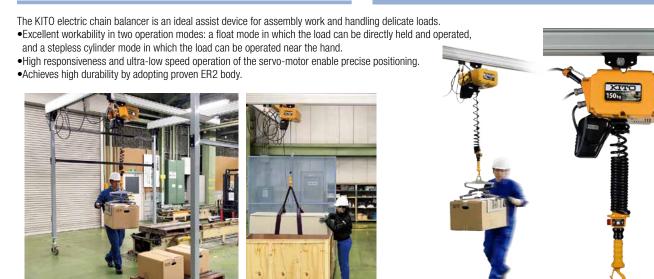

For H-Beam TMH25

Electric Chain Balancer

75kg to 250kg (Single/Three phase power supply)

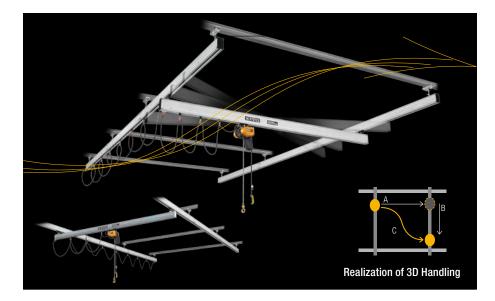

KITO ELECTRIC CHAIN BALANCER

Light Crane

KITO LIGHT CRANE

PROSYSTEM

Light and Smooth Movement

Due to the adopt of Aluminum rails, the pull force is much lighter than steel rails.

Improvement in Productivity By 3D movements based on ergonomics, high operability is achieved.

Easy Installation

Due to assembly of components, Installation time can be shortened. No need large-scale construction.

More Economical than Overhead Crane It is very easy to change layouts to match the work.

Selectable Hoists

In addition to Electric chain hoists, Manual chain hoists and air hoists can also be installed.

Electric Hoists

KITO WIRE ROPE HOIST

RY WIRE ROPE HOISTS 3.2t/5t/10t

KITO applies technologies and expertise built over eight decades of chain-hoist development and production to this line of wire-rope hoists to achieve exceptional performance with unparalleled safety and durability.

Original variable frequency drive control

Load swing minimized by original variable frequency drive control Greatest support possible for productivity and safety

Pull-rotor motor braking for high safety Complete control for secure hold on any load Integrated variable frequency drive for extended brake life

Lighter case

Low weight made possible with low-pressure aluminum casting Simple case design eases maintenance

Air Hoists

KITO AIR HOISTS

250kg to 25t

KITO Air Hoists reduce the burden for operators and supports improved work efficiency. A wide lineup is available, from models offering smooth low speed operation to models with stress-free high speed operation. There are also outstandingly portable, compact and light weight models as well as large-capacity models for handling heavy loads.

Electrical Supply Rail

KITO CRANE

OVERHEAD CRANES Single Girder

The single girder overhead crane can be installed on traveling rails on the brackets of building pillars.

This type of crane has a relatively larger capacity and can utilize space below ceiling rafters, and so a wider lifting range is assured.

OVERHEAD CRANES Double Girder

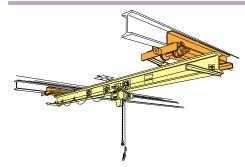

The double girder overhead crane can be installed on traveling rails on the brackets of building pillars.

The double rail type trolley runs along parallel girders suitable for larger capacity cranes, and also can utilize space below ceiling rafters, and so a wider lifting range assured.

LOW-HEAD CRANES Single Girder

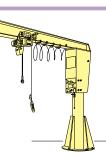

The low-head crane is suspended from the traveling rail (I-beam) which is fixed to the ceiling rafters of the building. Because the traveling rail location and span can be freely chosen, the crane can be designed to suit production line processes. The detaching design for the track wheel and its axle reduces installation and maintenance time.

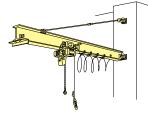

JIB CRANES

Pillar Type

The pillar type jib crane is a stand-alone type equipped with a rotating jib system, which can be installed in any place, whether inside or outside of a building, by conducting simple foundation work.

Wall Type

-

The wall type jib crane is a wall-mount type equipped with a rotating jib system which can be installed on a wall or a pillar of a building. The I-beam can rotate 180 degrees.

APPLIED TECHNOLOGY TYPE CRANES

For Jet Engine MaintenanceFor Clean RoomOther Various Special Cranes

KITO CHAIN HOISTS

KITO MIGHTY CB SERIES MODEL M3 500kg to 50t

- •Extraordinarily compact, light, and easy to use.
- •Excellent workability thanks to maximum mechanical efficiency,
- requiring the least manual force.
- •Excellent durability because of the top-grade load chain

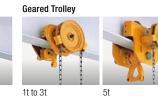

KITO UNIVERSAL TROLLEYS MODEL TS 500kg to 5t

. Wheels are specially machined and heat-treated for exceptional durability. • Extra-light structure is achieved due to strict design conditions. • Protective bumpers protect the wheels in case the trolley collides with the stoppers at the ends of the rail or collides with another trolley. Trolleys can be installed on either I-beam or H-beam rails. Specially designed for smooth running ; the rail width can be adjusted easily. All four wheels feature high-grade closed ball bearings that do not require lubrication.

Plain Trolley

500kg to 3t

1t to 3t

Applied Technology Type Product KITO LOW HEADROOM TYPE MODEL TS 1t to 20t

The Kito Low Headroom Type Manual chain hoist is designed with an ultra-small dead space compared to standard models. The chain hoist, designed with all the beneficial design specifications of Kito MIGHTY, provides high ease-of-use, quality, and performance.

Unique Industry Innovation! Equipped with automatic speed change gear in no-load.

High Speed CB

2.5 to 50 t

Stress-free 7:1 Lifting Speed! High Speed CB is just released!

A speed change gear is located behind a brake to fully ensure safety.

Operability in a loaded condition is as high as the standard specifications.

Relieved from past stress, a worker can smoothly prepare for his field work.

Specially Designed for Mining & Offshore Business **KITO MINING &**

OFFSHORE M3CB

500kg to 20t Special Features

- Forged Safety Latches - Sealed Bearings - Double Brake Pawls - Domu Nuts

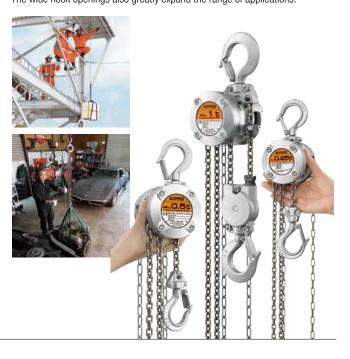

KITO CX SERIES 250kg/500kg/1t

Compact, Light weight and Simple design!

KITO CX series chain hoists are available as three types having capacities of 250kg, 500kg, or 1t.

The use of an integral aluminum body structure, the outstanding portability, and moreover the small hand pull force ensures smooth work. The wide hook openings also greatly expand the range of applications.

KITO LEVER HOISTS

KITO LB SERIES MODEL L5 0.8t to 9t

Kito's innovative technology makes this new model smaller and lighter than ever before.

- It's easy to carry and store, and the LEVER BLOCK™ is much easier to use, even in a narrow working spaces.
- •Kito's original free chain adjusting mechanism greatly improves the working efficiency.
- •The grade 100 (1000N/mm²) chain features an unbeatable combination of toughness and resistance to corrosion.

00000000

I B032

3.2t

•The LEVER BLOCKS™ are made by Kito's reliable design which is superior to world standards.

Shape is cut out with special tip so it can hook on to the edge of steel plate making it suitable for certain shipbuilding or plate working applications. (Not suitable for general load holding, taking-up, or lifting applications – use standard hook instead).

the overload limiter is activated and the lever slips. It is a device to improve operator's safety and hoist's durability.

KITO CLIP Accessory

I B090

 Kito Clips are special fixtures for wire rope. They are developed for applications where ropes are used with lever hoists or chain hoists.

KITO LEVER BLOCK

in the world

is received high

n on the s

- •Clips can be used in any desired position on a wire rope.
- •Inserting a wire rope in a clip and pulling the clip makes it grip the wire firmly.
- •The original groove design protects the wire surface.
- •Their combined use with a lever hoist improves efficiency and economy.

KITO LX SERIES 250kg/500kg

Kito LEVER BLOCK[™] LX series is available in two capacities: 250kg and 500kg. Extremely compact & light, these LX series hoists are suitable for work in tight quarters or elevated locations where fastening, fixing, or positioning of light load is required.

0000

KITO POLYESTER SLING

KITO POLYESTER SLING 500kg to 12.5t

The Kito Polyester Slings support a wide range of load handling operations, and offer exceptional strength to hold loads firmly yet with good flexibility to protect the load from damage.

Users can select the most appropriate type for various loads; the Belt Sling BSH type for a wide range of applications, the Round Sling RE type which is an endless type with a flexible rope-like shape, and Eight Sling EE type featuring a special dual structure with eyes at both ends.

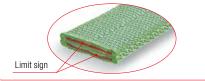

Round Sling RE Type 1t to 10t

. Eight Sling EE Type 500kg to 5t

With Limit sign for easy identification of discard limit.

The red core wadding is woven into the belt. The time when the core wadding comes into view due to damage is discard limit.

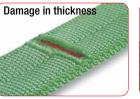

Criteria of limit sign for replacement (Right pictures show the state of damages on a brand-new sling. Residual strength is 85% or over.)

Chain Slings

The Kito Chain Sling 100 uses Kito's top-grade super-strong link chain developed based on a long technological history and experiences, featuring a rupture stress of 1000 N/mm² or even higher. Various standard link and fittings are also available to provide the best combination of products for different applications.

KITO CHAIN SLING 100

Large Master Link for Use on Work Sites with Large Cranes! The link's large width makes it suitable for use with various types of large-sized cranes, tower cranes, and wire rope hoists. Working Load Limit: 1.1t to 11.5t

Permanent Lifting Magnets

KITO LIFTING MAGNET

Allows you to lift both flat and round steel with one unit

In this design, the magnetic force does not remain on the contact surface when the product is in the OFF condition, and it will not pick even a small paper clip up. This also allows for easy load removal.

KRD8 Flat Steel 80kg Round Steel 60kg (Ø120)

KRD16 Flat Steel 160kg Round Steel 120kg (\$\$\phi160\$)

KRD80 Flat Steel 300kg Round Steel 220kg (\$\$\varphi\$200)

Lashing Belts

Kito Belt Lashings allow users to get large lashing force with a small manual force and firmly tighten any kind of load (from soft to hard objects).

Pull-Ratchet Buckle Type

Breaking Force: 40kN

Over-Center Buckle Type BL0005

Breaking Force: 5kN

BL0015 Breaking Force: 15kN

Cum Buckle Type BLC002

Breaking Force: 2kN

BLC010 Breaking Force: 10kN Breaking Force: 5kN to 40kN

KITO BELT LASHING

Maximum Working Force: 1.25kN (127kg) to 10kN (1010kg)

Maximum Working Force : 1/4 of the breaking force
